EDUCATION

High School Degree

Martin Luther King High

2017 - 2021

Associate in Science

Chaffey College

2022 - Current (Expected 2024)

PROJECTS

Rancho Drive Train Engineering

- Rancho Drive Train is a website that I made for a client to mainly just display information about their company and improve their online presence
- The website was built using WordPress, which utilized PHP to render static files
- Utilized Elementor and other plugins to help make the website more interactive and modernized
- Basic SEO using Google's Website Analytics and Yoast SEO to prefer the new link and sitemap as compared to the client's old website
- Optimized website performance using SEO tools and plugins

Retro Audio

- Retro Audio is a website that I made while considering making a business from modding an old retro phone to be used as an audio guestbook for my wedding
- Retro Audio is the first project that I made completely from scratch
- I utilized GitHub Copilot and other tools to help me learn how to develop many components within the website
- Use github for version control
- Coded in Typescript
- Utilized Next.js, and many packages such as framer motion, nextui, google calendar api, formspree, etc.
- Hosted on Vercel

CERTIFICATIONS

IBM Full Stack Software Developer

- Utilized many Application Development and Cloud technologies
- Working Knowledge of HTML, CSS, JavaScript, GitHub, Node.js, React, DevOps, Docker, OpenShift, etc.
- Made multiple projects to prove my understanding of the material
- Deployed projects to the cloud and managed projects through Kubernetes, and basic Python programming

WORK EXPERIENCE

Associate

85 Degree Bakery Cafe

2022 - Current

- Provide excellent customer service in a high-stress environment
- Communicate with peers and managers about needs and problems as they arise
- Understand the priorities of the tasks and complete them efficiently
